Editorial and Reviewer Positions in Reputed Scientific Journals

- Currently serving as Associate Editor at *ChemBio Publishers – Current Scientific Research in Biomedical Sciences (CSRBS)*.
- Currently serving as a Peer Reviewer for *World Journal of Pharmacy and Pharmacology, Premier Publishers*.
- Scientific Reviewer for the *Journal of Medical, Pharmaceutical, and Allied Sciences*, an online research journal.
- Currently serving as Associate Editor at *Asian Journal of Research in Pharmaceutical Sciences (A & V Publications)*.
- Currently serving as Associate Editor for *Research Journal of Pharmacology and Pharmacodynamics (A & V Publications)*.
- Scientific Reviewer and Editorial Board Member at *Pharma Tutor Magazine and Journal* – ranked the Best Indian Pharma Website and 4th globally.
- Scientific Reviewer and Editorial Board Member for *STM Journals (UGC Approved)*.
- Scientific Reviewer and Editorial Board Member at *International Journal of Pharmacy and Chemistry (Science Publishing Group, USA)*.
- Advisory Board Member of the *World Journal of Pharmaceutical Research*.

- Associate Editor for *International Journal of Medical and Pharmaceutical Research*.
- Advisory Board Member for *World Journal of Pharmacy and Pharmaceutical Sciences*.
- Editor for *Journal of Biomedical Research* and *Journal of Neurology*.
- Associate Editor at *BioInfo Publications Journal*.
- Editorial Board Member and Reviewer for the *World Journal of Current Medical and Pharmaceutical Research*.
- Review Member of the *International Journal of Research and Analytical Reviews*.
- Editor in *EC Emergency Medicine and Critical Care Journal*.
- Editor in *Asian Journal of Hospital Pharmacy*.
- Peer Review Member of *IAARHIES – The Society of Academic Research (Registered)*.
- Currently working as Editor for the *Rivista Medicine Journal*.
- Currently working as a Reviewer for the *Journal of Medicine*.
- Currently working as a Reviewer for the *Saudi Journal of Medical and Pharmaceutical Journal*.
- Currently working as a Reviewer for the *Saudi Journal of Biomedical Research*.
- Associate Editor of the *International Journal of Pharmacy and Pharmaceutical Science, Sparkling Press*.
- Certificate of Excellence in Peer-Reviewing by BP International
 - Certificate No: BPI/PR/Cert/8548A/DRM
 - In recognition of the outstanding contribution to the book.

Event / Award Details

SSLC PRIMARY AND SECONDARY SCHOOL EDUCATION

Sri C. V. Raman Council of Educational Awards, State Level Talent Test held on 7th March 2004, India	Awarded Young Genius Award in Class 6th, State Rank: 81, District Rank: 1
State Level Science Talent Search Examination (SLSTSE) 2003, India	Awarded State 26th Rank in Class 5th
Awarded School 1st Rank, District 14th Rank	
Indian Maths Marathon 2005 National Rank: 343 in Class 8th	
Attended State Level Science Fair organized by Govt in Kadapausthavalu, A.P., India	Awarded State 1st in Science Fair (Class 6th)
State Level Science Talent Search Examination (SLSTSE) 2005, India	Awarded State 180th Rank in Class 7th
Sri C. V. Raman Council of Educational Awards, State Level Talent Test held on 27th Feb 2005, India	District 6th Rank in Class 7th

Awarded State 331st Rank	
Aryabhata Educational Awards - 2005 State Level Science and Maths Talent Test held on 23rd Jan 2005, India	Awarded State 24th Rank and District 3rd Rank in Class 7th
Jana Vignana Vedika Talent Search Exam, A.P., India Awarded 1st Prize	
Dhakshina Bharath Hindi Prachar Sabha, Madras, Pradhamika Hindi Exam	Awarded District 1st Prize
A.P. State Level Children Art Competition 2003, India Awarded 1st Prize	

Skills & Techniques

Clinical Trials Management	Designing, coordinating, and monitoring clinical trials in infectious diseases, genetics, and cancer biology.
Drug Discovery & Development	Identification of novel molecular entities and strategic drug repurposing initiatives.
Biomedical Research	Elucidation of disease mechanisms through advanced in vitro and in vivo experimental models.
Pharmacological & Toxicological Studies	Performing comprehensive preclinical pharmacology and toxicity evaluations for new and existing therapeutics.
Pharmacogenomics	Genetic variation analysis to optimize drug response and facilitate personalized medicine approaches.
Pharmacoepidemiology	Large-scale assessment of drug utilization patterns and real-world drug effects.
Pharmacoeconomics	Conducting cost-effectiveness and health economic analyses for pharmaceutical interventions.
Epigenetic Studies	Investigating epigenetic modifications and their role in disease pathology and therapeutic outcomes.
Clinical Pharmacokinetics	Quantitative measurement and modelling of drug absorption, distribution, metabolism, and elimination.

Pharmacometrics	Application of modelling and simulation techniques to pharmacokinetic and pharmacodynamics data for optimized dosing.
Operational Research	Utilizing research methodologies to improve healthcare delivery and optimize drug utilization.
Pharmacodynamics & Therapeutic Drug Monitoring (TDM)	Monitoring and optimizing drug concentrations and therapeutic effects to ensure patient safety and efficacy.
Pharmacy Practice Research	Implementation of clinical pharmacy services, medication therapy management, and patient-centred care models.
Digital Health & Telepharmacy	Application of telemedicine, remote patient monitoring, and digital tools to enhance pharmaceutical care delivery.
Artificial Intelligence (AI) in Pharmacy	Utilizing AI-driven predictive modeling, machine learning algorithms for drug discovery, adverse event prediction, and personalized medicine.
Big Data Analytics	Analysis of large healthcare datasets to identify trends, optimize drug therapies, and support clinical decision-making.
Pharmacovigilance & Real-World Evidence	Monitoring drug safety post-marketing through electronic health records and real-world data analysis.
Nanotechnology in Drug Delivery	Designing and evaluating nano-formulations for targeted and controlled drug delivery systems.

Interested Interdisciplinary Collaborative Research Areas

Research Area	Focus
Bioinformatics Integration in Therapeutics	Application of computational tools for drug-target prediction, adverse drug reaction profiling, and therapeutic strategy optimization.
Genetics and Clinical Research	Study of gene-drug interactions and genetic polymorphisms to enable genotype-guided therapy and precision dosing.

Materiovigilance and Medical Device Safety	Post-market surveillance of medical devices, improved reporting systems, and analysis of real-world safety data.
Healthcare Data Analytics and Databases	Utilization of EHRs and large health datasets for pharmacoepidemiology, therapy outcome tracking, and trend analysis.
Artificial Intelligence in Decision Support	Use of AI/ML models to predict drug interactions, automate prescriptions, and enhance personalized clinical decisions.
Pharmacogenomics in Precision Medicine	Genomic testing for optimizing drug efficacy and safety; bridging genetics with individualized therapy protocols.
Personalized and Stratified Medicine	Design of patient-specific therapies using multi-omics (genomics, proteomics, metabolomics) and clinical biomarkers.
Innovative Drug Discovery & Development	Target identification, lead optimization, and translational pharmacology through integrated interdisciplinary platforms.

Genomic, Genetic & Biomedical Databases

- **NCBI (National Centre for Biotechnology Information)**
Central hub for a variety of databases including GenBank, BLAST, and RefSeq. Offers access to genomic, transcriptomic, and biomedical data.
 - **OMIM (Online Mendelian Inheritance in Man)**
A curated database focusing on human genes and genetic disorders. Used extensively in medical genetics.
 - **Gene Cards**
Integrates gene-centric data, including function, expression, disorders, and pathways.
 - **HGMD (Human Gene Mutation Database)**
Collects known gene mutations linked to human inherited diseases. Used in diagnostics and research.
 - **HUGE Navigator (Human Genome Epidemiology Navigator)**
Provides access to studies on the associations between genes and diseases or traits, supporting genomic epidemiology.
-

Drug, Target & Pharmacogenomics Databases

- **Swiss Target Prediction**
Predicts likely macromolecular targets for bioactive small molecules using chemical similarity and machine learning.
 - **Drug Bank**
Combines detailed drug data with comprehensive drug-target interactions, including mechanisms of action and pharmacology.
 - **Pharm GKB (Pharmacogenomics Knowledgebase)**
Contains information about the impact of genetic variation on drug response, helping guide personalized medicine.
-

Toxicology & Interaction Databases

- **CTD (Comparative Toxic genomics Database)**
Curates chemical-gene/protein interactions, chemical-disease, and gene-disease relationships to understand environmental effects on human health.
-

Pathways, Interactions & Molecular Networks

- **KEGG (Kyoto Encyclopaedia of Genes and Genomes)**
Integrates genomic, chemical, and systemic functional information. Useful for pathway mapping and disease mechanisms.
 - **STRING (Search Tool for the Retrieval of Interacting Genes/Proteins)**
Predicts protein-protein interactions based on known and predicted associations.
 - **Bio GRID (Biological General Repository for Interaction Datasets)**
Collects biological interactions including protein-protein, genetic, and chemical associations.
-

Clinical Research & Trials

- **ClinicalTrials.gov**
A registry and results database of publicly and privately supported clinical studies around the world.

Clinical Drug Information Databases

These are essential for day-to-day pharmacy practice for checking drug interactions, dosing, side effects, etc.

1. **Micromedex**
 - Comprehensive drug information, interactions, IV compatibility, and toxicology.
 - Often used in hospitals and clinical settings.
 2. **Lexi comp**
 - Detailed drug monographs, interaction checker, and patient education leaflets.
 - Popular in community and clinical pharmacy.
 3. **Up-to-date**
 - Evidence-based clinical decision support tool that includes drug therapy options and guidelines.
 4. **Drugs.com**
 - Public-access drug information including side effects, pill identifiers, and interaction checkers.
 5. **Epocrates**
 - Mobile-friendly drug reference including dosing, interactions, and medical calculators.
-

Adverse Drug Reactions & Safety

These help monitor drug safety and pharmacovigilance:

6. **FAERS (FDA Adverse Event Reporting System)**
 - Database of adverse event reports submitted to the U.S. FDA.
 7. **Med Watch (FDA Safety Information and Adverse Event Reporting Program)**
 - For reporting and accessing information on adverse drug events.
 8. **EudraVigilance (European Medicines Agency)**
 - European system for managing and analysing adverse drug reaction reports.
-

Drug Interaction & Compatibility

These focus specifically on drug-drug interactions and IV drug compatibility:

9. **Drug Interaction Checker – Medscape**
 - Free tool to evaluate potential drug-drug interactions.
10. **Trissel's IV Compatibility (via Micromedex or Lexi comp)**
 - Gold standard for checking intravenous drug compatibility.

Product Information & Identification

Helpful for identifying medications and checking product formulations:

11. **Daily Med** (by NIH)

- Official source for FDA label (package insert) information.

12. **Pillbox** (archived but replaced by Drugs.com and Medscape tools)

- Pill identification based on shape, color, and imprint.
-

Pharmacogenomics & Personalized Medicine

13. **CPIC (Clinical Pharmacogenomics Implementation Consortium)**

- Guidelines on using pharmacogenetic tests in drug therapy.

14. **gnomAD**

- Population genetics database that can support pharmacogenomics analysis.
-

Cost, Availability & Formulary Information

15. **GoodRx**

- US-based pricing comparison and discount program for prescriptions.

16. **Formulary Lookup**

- Helps pharmacists and prescribers determine if a medication is covered under a patient's insurance plan.
-

Education, Counselling & Clinical Decision Support

17. **MedlinePlus** (by NIH)

- Patient-friendly drug information and health education.

18. **ISMP (Institute for Safe Medication Practices)**

- Reports on medication errors and safety alerts.

19. **Clinical Key**

- Drug and disease reference with clinical guidelines and textbooks (by Elsevier).

Biostatistics & Research Software Skills

❖ **Statistical Analysis Tools:**

Proficient in **SPSS**, **Graph Pad Prism**, and **R** (with RStudio) for descriptive and inferential statistics, regression analysis, and ANOVA. Experienced in data visualization and hypothesis testing in clinical and pharmaceutical research settings.

❖ **Clinical Research & Epidemiology Software:**

Skilled in **Epi Info**, **OpenEpi**, and **RevMan** for designing surveys, conducting epidemiological analysis, and performing systematic reviews/meta-analyses aligned with evidence-based medicine principles.

❖ **Pharmacokinetics/Pharmacodynamics (PK/PD) Modelling:**

Working knowledge of **WinNonlin (Phoenix)** and **NONMEM** for dose optimization, bioequivalence studies, and population pharmacokinetic modelling.

❖ **Data Management & Visualization:**

Competent in **Microsoft Excel** (including Analysis Tool Pak), **Tableau**, and **Power BI** for organizing clinical datasets, statistical summaries, and creating interactive dashboards.

❖ **Sample Size & Trial Design Tools:**

Familiar with **PS: Power and Sample Size Calculator** and **Trial Simulator** for estimating study power, optimizing sample sizes, and simulating clinical trial outcomes.

Research Methodology & Scientific Inquiry

❖ **Research Design & Planning:**

Proficient in designing observational, experimental, and interventional studies, including randomized controlled trials (RCTs), cohort, case-control, and cross-sectional studies.

❖ **Protocol Development & Ethical Compliance:**

Experienced in developing research protocols, informed consent forms, and aligning studies with ethical standards (ICH-GCP, institutional ethics committee guidelines).

❖ **Data Collection & Survey Methodology:**

Skilled in developing and validating clinical data collection tools (e.g., case report forms, KAP questionnaires), conducting structured interviews, and ensuring data accuracy and confidentiality.

❖ **Literature Review & Evidence Synthesis:**

Competent in systematic literature reviews using **PubMed**, **Cochrane Library**, and **Google Scholar**; familiar with PRISMA guidelines for systematic reviews and meta-analyses.

❖ **Statistical Analysis & Interpretation:**

Applied knowledge of descriptive and inferential statistics using tools such as **SPSS**, **R**, and **Graph Pad Prism** for analysing clinical and pharmaceutical data.

❖ **Scientific Writing & Presentation:**

Proficient in writing research papers, abstracts, and reports; experienced in presenting findings at seminars, conferences, and journal clubs.

Clinical Pharmacy & Patient-Centered Research Skills

❖ **Clinical Study Design & Patient Care Research**

Skilled in designing and conducting **patient-centred studies** such as **Drug Utilization Evaluations (DUEs)**, **Adverse Drug Reaction (ADR) monitoring**, **Medication Adherence Studies**, **Pharmacoeconomic Evaluations**, and **Quality of Life (QoL) assessments**.

❖ **Pharmaceutical Care & Intervention Studies**

Experienced in implementing **pharmaceutical care plans, medication therapy management (MTM)**, and measuring clinical outcomes in inpatient and outpatient settings.

❖ **Patient Data Collection & Monitoring**

Proficient in using **Case Report Forms (CRFs)**, patient interview techniques, medication history documentation, and structured clinical assessments for monitoring efficacy and safety of drug therapies.

❖ **Clinical Research Tools & Techniques**

- **Drug Interaction Checkers:** Lexi comp, Micromedex, Medscape
- **ADR Reporting Tools:** WHO-UMC scale, Naranjo algorithm
- **Clinical Scales:** Morisky Medication Adherence Scale (MMAS), VAS (Pain), GAD-7, PHQ-9
- **QoL Instruments:** SF-36, EQ-5D, WHOQOL-BREF

❖ **Patient Education & Counselling**

Trained in providing individualized counselling on medication use, side effects, lifestyle modifications, and adherence strategies, supporting optimal therapeutic outcomes.

❖ **Electronic Medical Record (EMR) & Data Management**

Experienced in reviewing and analysing patient records, laboratory values, and prescriptions using EMRs; ensuring proper documentation for clinical audits and pharmacovigilance reporting.

❖ **Inter professional Collaboration**

Skilled in working with physicians, nurses, and healthcare teams for clinical case discussions, medication reconciliation, and discharge planning.

Software & Tools Expertise

- **Clinical Research & Statistics:** SPSS, Graph Pad Prism, Excel (with Analysis Tool Pak), R
- **Drug Databases:** Lexi comp, Micromedex, Drug Bank, PharmGKB
- **Literature Review Tools:** PubMed, Cochrane Library, Google Scholar
- **ADR/Pharmacovigilance Platforms:** Vigiflow, Med Watch, PvPI

Additional Pharm.D-Related Skills & Areas of Expertise

1. Pharmacovigilance & Drug Safety

- Proficient in **adverse drug reaction (ADR) reporting**, signal detection, and causality assessment using tools like **Vigiflow**, **WHO-UMC**, and **Naranjo Algorithm**.
- Knowledge of **global regulatory systems** (e.g., **FDA Med Watch**, **EudraVigilance**, **PvPI**) and Good Pharmacovigilance Practices (GVP).

2. Therapeutic Drug Monitoring (TDM)

- Skilled in monitoring plasma drug concentrations and interpreting lab results to optimize dosing regimens for drugs with narrow therapeutic windows (e.g., vancomycin, phenytoin).

3. Clinical Guidelines & Evidence-Based Medicine

- Experienced in applying clinical practice guidelines (e.g., **NICE**, **IDSA**, **ACCP**, **KDIGO**) to manage chronic and acute diseases.
- Familiar with evidence grading systems (e.g., **GRADE** approach).

4. Community & Hospital Pharmacy Operations

- Knowledge of **prescription auditing**, inventory control, narcotics handling, and **pharmacy management software** (e.g., Marg ERP, Win Pharm, eHospital).

5. Drug Information & Literature Evaluation

- Trained to retrieve, appraise, and communicate **drug-related queries** using tertiary, secondary, and primary literature sources.
- Proficient in using **Drug Information Resources**: Micromedex, Lexi comp, PubMed, Up-to-date.

6. Regulatory Affairs & Documentation

- Understanding of **drug approval processes**, **CTD (Common Technical Document)** format, **ICH guidelines**, and regulatory documentation.
- Exposure to **clinical trial documentation**, including **Informed Consent Forms (ICFs)** and **Investigator Brochures**.

7. Public Health & Pharmacoepidemiology

- Knowledge of **health screening**, **vaccination campaigns**, and **epidemiological surveillance systems**.
- Familiarity with pharmacoepidemiologic databases like **HUGE Navigator**, **OpenEpi**, and **Epi Info**.

8. Pharmacoeconomics & Health Outcomes

- Ability to perform **cost-effectiveness**, **cost-utility**, and **budget impact analyses** using basic models.
- Application of **QoL instruments** and health outcome metrics in evaluating therapies.

9. Clinical Documentation & Reporting

- Skilled in preparing **SOAP notes, discharge summaries, case presentations, and clinical intervention logs.**
- Experience with **Electronic Health Records (EHR)** and **hospital pharmacy documentation systems.**

10. Soft Skills & Communication

- Strong **patient counselling** and **inter professional collaboration** skills.
- Excellent at **presenting drug cases**, conducting **health awareness programs**, and leading **community outreach.**

✂ Other Add-on:

- **GCP (Good Clinical Practice)** – ICH-certified
- **Pharmacovigilance Certification** – via recognized platforms (Coursera, Udemy, etc.)
- **Clinical Research Training** – NIH or Collaborative Institutional Training Initiative (CITI)
- **Antimicrobial Stewardship** – WHO, CDC, or Open WHO programs

Clinical Pharmacy Related Expertise

Pharmacotherapy & Medication Management

- In-depth understanding of pharmacokinetics, pharmacodynamics, and drug interactions
 - Designing and monitoring individualized pharmaceutical care plans
 - Conducting medication reconciliation and adverse drug reaction assessments
-

Clinical Research & Trials

- Coordination and monitoring of clinical trials involving drug therapies
-

- Data collection, analysis, and interpretation for evidence-based practice
 - Familiarity with Good Clinical Practice (GCP) guidelines and regulatory compliance
-

Patient & Professional Education

- Counselling patients on medication adherence and safety
 - Training healthcare professionals on updated drug therapies and protocols
 - Development of educational materials and workshops
-

Antimicrobial Stewardship & Infection Control

- Implementation of antimicrobial stewardship programs to optimize antibiotic use
 - Monitoring and reporting of antimicrobial resistance patterns
 - Collaborating with infection control teams to reduce hospital-acquired infections
-

Healthcare Collaboration & Communication

- Working with multidisciplinary teams to improve patient outcomes
 - Effective communication skills in clinical and academic settings
 - Utilizing electronic health records (EHR) and clinical decision support tools
-

Regulatory & Operational Knowledge

- Compliance with pharmacy laws, hospital policies, and clinical guidelines
 - Experience with hospital pharmacy management and formulary systems
-
